Jovan Jovanovic

Entry level Front-End Web Developer

Passionate about Front-End Development. Interested in React, but opened to learn any other Front-End framework/library. Motivated to work in a team and also to learn every day throughout new challenges.

CERTIFICATES

Become a Front-End Web Developer
(https://www.linkedin.com/learning/paths/become-a-front-end-web-developer)
• Developed competency with HTML, CSS, JavaScript, and jQuery; Mastered basic version control with Git and GitHub; Applied best practices in responsive design and progressive enhancement

PERSONAL PROJECTS

Custom made WP website and theme (https://glamur.co.rs)
- A WordPress website made from scratch. I used both front-end and back-end technologies. Advanced custom fields, custom contact form, Leaflet maps API, etc.

Mini Premier League web app (https://pl-app.netlify.com/)
- The application uses football-data.org API to show you different pieces of information about teams from the English Premier League. Built with React.

Two-Dice Pig Game (https://jovan6jovan.github.io/pig-game/)
- Simple web browser game for two players, written in vanilla JavaScript.

Other
- The remaining projects can be seen on my GitHub profile.

EDUCATION

Electronic Business
School of Electrical and Computer Engineering of Applied Studies

10/2013 – 02/2019   *Belgrade*
