Jovan Jovanovic

Entry-level Front-End Web Developer

Passionate about Front-End Development. Interested in React, but opened to learn any other Front-End framework/library. Motivated to work in a team and also to learn every day throughout new challenges.

Become a Front-End Web Developer
(https://www.linkedin.com/learning/paths/become-a-front-end-web-developer)
• Developed competency with HTML, CSS, JavaScript, and jQuery; Mastered basic version control with Git and GitHub; Applied best practices in responsive design and progressive enhancement

PERSONAL PROJECTS

Custom made WP website and theme (https://glamur.co.rs) ⧉
- A WordPress website made from scratch. Used both front-end and back-end technologies. Advanced custom fields, custom contact form, Leaflet maps API, etc.

Mini Premier League web app (https://pl-app.netlify.com/) ⧉
- The application uses football-data.org API to show you different pieces of information about teams from the English Premier League. Built with React.

Mini NBA web app (https://jovan-nba-app.netlify.com/) ⧉
- The mini NBA app shows you player stats, basic info about NBA teams, and the matches that are going to play on today's date. It uses balldontlie.io API. Built with React.

Other
- The remaining projects can be seen on my GitHub profile.

EDUCATION

Electronic Business
School of Electrical and Computer Engineering of Applied Studies
10/2013 – 02/2019   *Belgrade*
